

Village of Ludlow Electric Light Department NOTICE OF PROPOSED RATE CHANGES

On April 15, 2026, the Village of Ludlow Electric Department filed revised tariffs with the Vermont Public Utility Commission (PUC) for an increase in its retail rates of 7.20%. The overall increase in costs for the Electric Department is due largely to increases in the operation and maintenance, power supply, and labor cost categories of the cost of supplying and distributing energy to the consumer. The proposed retail rate schedule is to be effective on a service rendered basis beginning June 1, 2026.

To determine the impact on your individual bill, use the present and proposed rates column and your average monthly consumption. For example, a residential customer using an average of 600 kWh a month would calculate their bill as follows:

	<u>Present Rates</u>		<u>June 1, 2026 Proposed Rates</u>
Customer Charge	\$ 10.80		\$11.58
NYPA 125 x \$0.0661	\$ 8.26	125 x \$0.0709	\$ 8.86
Tail block kWh 475 x \$0.1488	\$70.68	475 x \$0.1595	\$75.76
	-----		-----
	\$89.74		\$96.20

The Public Utility Commission has no authority to suspend this rate request. If the PUC decides not to open a formal investigation, the rates will take effect June 1, 2026, on a permanent basis. However, the PUC may order a formal investigation and hearing on the proposed rate changes. Until completion of that formal review by the PUC, the increase would be listed as a surcharge on your bill. Any person wishing to comment on the proposed rate change should file their views in writing via the PUC's electronic filing system which can be found at ePUC.vermont.gov and use **Case No. 26-0721-TF**. Comments may also be submitted by regular mail at Vermont Public Utility Commission, 112 State Street, Montpelier, Vermont 05620-2701.

Any interested person may examine the tariff change filing at the Village of Ludlow Electric Department offices during normal business hours.
